

Bratislava - Slovakia
September 4-9, 2016

On behalf of the International Society for Plasma Medicine (ISPM) we invite you to the 6th International Conference on Plasma Medicine (ICPM-6), which will be held in Bratislava, Slovakia, on September 4-9, 2016.

Plasma Medicine is a new, rapidly growing field that faces many technological challenges and brings to the forefront fundamental questions on the mechanisms of interaction between living organisms and gas plasmas. The conference creates a multidisciplinary forum bringing together professionals from the fields of plasma physics, medicine, biology, biochemistry, pharmacy, agriculture, and food science and industry, in order to develop a common language, to better define key challenges and open questions, to further development of international collaborations, and to move toward effective solutions.

This time, the ICPM-6 will be preceded by the 1st international Summer School on Plasma Medicine.
