

# 6<sup>th</sup> International Conference on Plasma Medicine

icpm<sup>6</sup>

September 4-9, 2016, Bratislava - Slovakia

## Sponsorship/Partnership and Exhibitor Opportunities

On behalf of the International Society for Plasma Medicine (ISPM), we are delighted to invite you to the **6<sup>th</sup> International Conference on Plasma Medicine (ICPM-6)**, <http://icpm6.com>, which will be held in **Bratislava, Slovakia, on September 4 to 9, 2016**. The conference is organized by the Division of Environmental Physics of the Faculty of Mathematics, Physics and Informatics of Comenius University in Bratislava and by the non-profit Society for Plasma Research and Applications.

Plasma Medicine is a new, rapidly growing field that faces many technological challenges and brings to the forefront fundamental questions on the mechanisms of interaction between living organisms and gas plasmas. The conference creates a multidisciplinary forum and brings together professionals from the fields of plasma physics, medicine, biology, biochemistry, pharmacy, agriculture, and food science and industry.

Biannual International Conference on Plasma Medicine was founded in 2007 (Corpus Christi, USA, with 60 participants) as a response to the new emerging field of biomedical applications of cold plasmas. Followed by San Antonio, USA, 2009 (110 participants), Greifswald, DE, 2010 (184), Orleans, FR, 2012 (293) and Nara, JP, 2014 (339), this new multidisciplinary community grows very rapidly: we are expecting to receive 400-500 participants at ICPM-6 in Bratislava.

The conference organizers propose several possibilities to partner or sponsor the conference and enable company exhibits. An overview of the possibilities is in the tables on the next pages. We encourage you to consider exhibitor/partner registration packages that offer advantageous prices. If your company/publishing house is interested in supporting the conference in a specific or a more general way, please contact us before 1 June 2016.

Thanks to the multidisciplinary character of the conference, we especially encourage the manufacturers/distributors of various cold plasma sources and plasma jets, (pulsed) high voltage power supplies, all sorts of optical, laser, spectroscopic and other analytical instruments, medical instruments and diagnostics devices, electroporators, sterilization, decontamination and food processing technologies, and pharmaceuticals to come, exhibit, support the conference and get valuable attention of scientists and clinicians. Publishing houses of scientific literature in the areas of physics, medicine, biology, biochemistry, pharmacy, agriculture, and food technology are also very welcome to promote their journals and books.

Please note that the welcome reception, all coffee breaks and poster sessions will take place in the main hall of the conference venue adjacent to the lecture rooms. Exhibitors will definitely receive constant attention from the conference delegates.
